PALMA

PHAIDON

Es Baluard Museu

A fantastic 'intervention' into the 16th-century battlement walls of Baluard de Sant Pere, Sánchez-Cantalejo + Tomás's gallery, completed in 2004, features dynamic inside and outside spaces. The collection includes works by Giacometti and Picasso. Outside, Calatrava's 15m-high *Bou* is a landmark in its own right. *Plaça Porta Santa Catalina 10*, T 971 908 200, esbaluard.org

Colegio de Abogados de Baleares

Local architects Ángel Sánchez-Cantalejo and Vicente Tomás's HQ for the Balearic Bar Association was opened in 2001.

In a tight plot on a tiny side street, and incorporating existing buildings, the pair have reinvented the traditional Palma courtyard, creating a building of quiet drama that somehow matches stark modernism with a traditional Mallorcan method. It also does some very smart

things with staircases. The same architects are also responsible for several radical housing projects in the city, notably 143 Viviendas (overleaf), an apartment complex in La Ribera completed in 2003. *Passeig de la Rambla 10*
